18 upcoming cars A3 2023, Tiguan Allspace 2022, Jimny, Alcazar 2023, Seltos 2023 will be launched in India in January in 2022-2023. Among these upcoming cars, Audi A3 2023, Hyundai Alcazar 2023, Kia Seltos 2023, Mahindra Bolero Neo Plus 2023, Skoda Enyaq iV 2023.

1. Audi A3 2023: The driver-centric design of the Audi A3 interior keeps you, the driver, top-of-mind. Comfort and style await with premium materials and finishes. Black optic sport package. The Black optic sport package on the Audi A3 includes sport suspension, upsized 18" wheels, and black exterior trim.

- Fuel Type - Petrol
- No. of cylinder - 4
- Seating Capacity - 5
- Transmission Type - Automatic
- Body Type - Sedan
- Engine Displacement (cc) - 1998

2. Hyundai Alcazar 2023: Alcazar may seem like it is just a stretched Creta. In reality, it is exactly that. It lacks the raw immenseness that others in this segment offer. But Alcazar does hold the premium quotient but it lacks premium interior bits like soft-touch plastics. If Tata can give relatively soft-touch plastics on Vista in 2008, we can expect cars costing four times as much to offer it, right.

- Fuel Type - Petrol
- Engine Displacement (cc) - 1999
- No. of cylinder - 4
- Transmission Type - Manual
- Body Type - SUV

3. Kia Seltos 2023: Seltos was built for those who have their own path. Take on new roads with rugged capabilities to keep you confident and comfortable in all climates. The available turbocharged engine provides responsive torque for strong performance in challenging driving conditions.

- Fuel Type - Petrol
- Engine Displacement (cc) - 1497
- No. of cylinder - 4
- Transmission Type - Manual
- Body Type - SUV

4. Mahindra Bolero Neo Plus 2023: Mahindra will be reintroducing the TUV300 Plus in the Indian market soon. They will be renaming it “Bolero Neo Plus”. The TUV300 Plus was discontinued back in 2020 when the BS6 emission norms kicked in. Now, the spy shots and homologation documents of the upcoming SUV have been leaked online. We expect Mahindra to launch the Bolero Neo Plus before the end of this year.

- Fuel type - Petrol
- Transmission type - Manual
- Engine displacement (cc) - 1497
- No. of cylinder - 4
- Body Type - SUV

5. Skoda Enyaq iV 2023: Skoda has launched an updated version of the Enyaq for the car's 2023 model year. The company tweaks stretch to some fresh infotainment software, a choice of four new equipment packages and an improved battery management system which has increased the IV 80 variant's maximum range from 329 to 338 miles. Skoda's biggest update for the Enyaq is its improved battery management software. However, the brand has made a few more changes in an effort to make the Enyaq easier to live with day-to-day.

- Body Type SUV
- Transmission Type Automatic
- Fuel Type Electric
